my IGDIs Early Literacy+Screening/Second Edition Language and Literacy domain only; Must be used as part of a bundle.	\$300.00 per class (\$480.00 with myIGDIs Literacy and Numeracy) <i>Price as of 08/12/2015</i>		X	<p>The Early Literacy IGDIs were recently revised at the University of Minnesota. Through a rigorous process, the new assessments were constructed using Item Response Theory – a modern approach to test design. As opposed to Classical Test Theory, Item Response Theory assumes an “ability” that is invariant in characteristics across individuals and time. In short, the revised literacy measures offer a highly precise method of locating an individual on an ability-based scale aligned with important instructional decisions.</p> <p>As part of a multi-tiered model in early childhood, the Early Literacy IGDIs were developed to inform decisions about whether children are demonstrating adequate levels of performance given the general level of instruction (Tier 1), or if their performance indicates a need for more intense levels of instruction (Tier 2 or Tier 3). Online and manual components available. <i>Early Learning Labs, Inc. (2015). Early Literacy Assessments. Retrieved from http://www.myigdis.com/preschool-assessments/early-literacy-assessments/</i></p>	Early Learning Labs, Inc.
My IGDIs Early Numeracy/First Edition Cognitive domain only; Must be used as part of a bundle.	\$270.00 per class (\$480.00 with myIGDIs Literacy+ Screening) <i>Price as of 08/12/2015</i>		X	<p>Developed at the University of Memphis, the Individual Growth & Development Indicators of Early Numeracy enable early childhood instructors to collect and monitor important information regarding early mathematics and number skill acquisition. <i>Early Learning Labs, Inc. (2015). Early Numeracy Assessments. Retrieved from http://www.myigdis.com/preschool-assessments/early-numeracy-assessments/</i></p>	Early Learning Labs, Inc.

Splash Into Pre-K: Early Growth Indicators Benchmark Assessment Cognitive and Language and Literacy domains; Must be used as part of a bundle.	No longer available - see Scholastic Big Day for Pre-K assessment		X	Part of the Houghton Mifflin Pre-K curriculum: The Early Growth Indicators Benchmark Assessment (EGIBA) is a series of brief assessment activities designed to measure a selected set of preschool skills that are critical for later school success. The foundational skills the EGIBA evaluates—phonological awareness, letter knowledge, vocabulary, oral language skills, and number sense—have been shown to be strong predictors of academic success. The assessment is made up of seven Early Growth Indicators, each of which takes one to two minutes to administer in a one-on-one setting. The EGIBA itself is administered at the beginning, middle, and end of the year. <i>Houghton Mifflin. (2015). Assessment. <p>Splash into Pre-K Language and Literacy, Approaches to Learning, Creativity and the Arts, and Cognitive Development domains; Must be used as part of a bundle.</p>	<p>No longer available from publisher. See Scholastic Big Day for Pre-K Assessment</p>		<p>X</p>	<p>Splash into Pre-K is assessment based with strong support for both informal and formal assessment. Pre-K assessments are essential for gaining insight into how much children are growing and learning and allow you to adjust the way you teach to better meet their needs. Easily collect and record daily or weekly observations for each child using the Observation Checklist Tool. Each Themed Teacher's Edition in Splash into Pre-K provides a chart that outlines the desired outcome for skills or behaviors covered in each lesson, what to observe, and a suggested instructional approach. The Pre-K Early Growth Indicators are a series of research-based, brief assessment activities designed to measure a selected set of preschool skills critical to later academic success. They are designed to measure a child's progress on critical skills within a particular domain over time. See Curriculum guide for more information. <i>Houghton Mifflin Harcourt. (2015). Assessment. <p>The Carolina -FOR USE IN ECSE SETTINGS ONLY</p>	<p>\$99.95 for both Infant/Toddler and Preschool assessments; \$54.95 each when Infant/Toddler or Preschool assessment is purchased separately; CD-ROM with electronic forms available for an additional cost <i>Price as of 08/12/2015</i></p>	<p>X</p>	<p>X</p>	<p>The Carolina Curriculum is an assessment and intervention program designed for use with young children from birth to five who have mild to severe disabilities. Professionals in home-, school-, or center-based environments will improve children’s outcomes by systematically using this easy-to-use, criterion-referenced system that clearly links assessment with intervention and lets them work closely with the child’s teachers, family members, and other service providers. In each of the age-specific volumes, all the areas to be assessed are clearly laid out in logical sequences in an Assessment Log. Each item on the assessment tool is linked directly to a curriculum item that describes procedures for teaching the assessed skill. Assessment is linked to intervention through hierarchies of developmental tasks that are both relevant to typical routines and pertinent to long-term adaptation—thus integrating the intervention in a meaningful way into the child’s life. Electronic and manual versions available. <i>Brookes Publishing Co.(2015). The Carolina Curriculum.
